

# Who we are

Sakaramenta is a social enterprise based in Malawi. We manufacture simple, strong and sustainable design solutions. We have a variety of products including like full collections of hospital furniture, playground equipment and push/ bicycle carts. Furthermore, we are the sole distributor, in Malawi, of the strong Buffalo Bicycle.

The workshop of Sakaramenta is based in Blantyre, where our experienced and well-educated staff are making high-quality products. With a remarkable experience and good track record of over seven years of traceable production in products that benefit Malawi. Among our customers are the main international NGOs, private sector and health centres. We strive to understand and learn what our clients' needs and programs are before designing any product; proper research is also carried out to ensure the practicability of the product.

Sakaramenta has proven its innovation over the years by introducing a wide variety of locally made new products. We are proud to share with you our Product Catalog and we look forward to work together with you.

# CARE COLLECTION

## Hospital Furniture

---

*“We are the first producer of hospital equipment in Malawi”*

Sakaramenta manufactures high quality hospital furniture in Blantyre. In collaboration with doctors in Malawian hospitals we developed ten products; that are often used, need a simple design and have to be high standard.

We use durable materials to make these products; like stain-less steel, strong two-components paint and long-lasting caster wheels. Our hospital furniture is locally made and can be maintained and serviced. That's what we call sustainable.

# Drip Stand

## Product details

Min. Length: 1400mm  
Max. Length: 2100mm

- 1 Steel stand with 4 hooks
- 2 Screw safety height adjustment

Will this be YOU?

Sakaramenta manufactures high quality hospital furniture in Blantyre. In collaboration with doctors in Malawian hospitals we developed ten products; that are often used, need a simple design and have to be high standard.

We use durable materials to make these products; like stain-less steel, strong two-components paint and long-lasting caster wheels. Our hospital furniture is locally made and can be maintained and serviced. That's what we call sustainable.

# Whole playground

Play is an essential part of childhood development; through play, they develop, emotionally, physically, intellectually and socially.

It is important for schools, recreational areas and individuals to acquire the appropriate equipment for your targeted age group or for your own children children

# Climbing Wall

A climbing wall is loved by all children. It is made of durable products. It can be combined with a slide or swing.

Benefits of Climbing Wall:

- Mental and physical focus
- Balance and coordination
- Flexibility
- Self Confidence and trust
- Motivation
- It also teaches children to overcome fear

# Swing

## Product details:

- 1 Double swing and hanger.
- 2 Strong construction.

Swinging is great. We offer single and double swings of a good quality. The swings are balanced and strong. And the seats are made of hardwood. We can extend your double swing with a hanger or a climbing part. Swinging helps with the sensory integration, which is how your brain organizes and interprets information. It is calming and it increases spatial awareness

# Slide

## Product details:

- 1 Size big slide: 40x225x175 cm
- 2 Size small slide: 35x160x150 cm

Children love to slide. We offer two kinds of slides. A slide for young children up to 4 years and a slide for children up to 12 years. Our slides have smooth edges and a great appearance.

A slide offers excellent cardiovascular training to children. You can choose whether you want a portable slide or a slide which has to be mounted in the ground.

# Spinner

## Product details:

Size: 200x200x60 cm.

- 1 *A beautiful and simple design.*
- 2 *Smooth handles.*

Our merry-go-around is called spinner. It turns smoothly on a strong axle. With the round handles you can give it a good swing. The hard wood timbers make sure that this spinner will last.

The Spinner promises discovery; as the cycle repeats, never changing direction nor diameter, senses align to the closed circle the children are in. They sense space by moving through it and sense time by a familiar flash point on the horizon.

# Wheely

## Product details:

Size: 45x55x90 cm

- 1 *Made of a strong car spring.*
- 2 *The wheely is never boring.*

This play ground equipment is hardly seen in Africa, but children love it. Made of a strong car spring this playground equipment is guaranteed a success.

You can move any direction. It's like you are riding on a horse a camel or a motor-bike, just fun!

# Play car

## Product details:

Size: 200x1000x200cm, slide, swing, fireman pole included.

- 1 A lot of space to have a lot of fun.
- 2 Drive your own car as a little kid.

Imagine you are a child and you have your own car, with two steering wheels, a real gear liver, a slide on the back, a platform on top, a fireman pole rush down, a climbing frame to reach the top and a swing attached to it. That must be a dream.

A dream which comes true with the Play car. This Play car is unique in the world. All the edges are smooth, so save for children. We can make a Play car of an ambulance, school bus, truck, police car etc. One thing is for sure this will make any child happy.

# Stepping stones

## Product details:

- 1 Comes in different sizes.
- 2 Smooth shape.

Jump from one stone to another, play your own games with it or use it as chair to rest. Children use step stones in many different ways. With their fantasy it can even become a castle. Our concrete step stones are very strong and will last forever.

# Tire run

## Product details:

- 1 *Frame to rest.*
- 2 *Runs smoothly*

Running and not moving forward? That is the Tire Run. You spin the wheels by running on it, when you are tired, just take a rest at the frame.

# Up & Down

## Product details:

Size: 65x245x100 cm

- 1 A portable see-saw.
- 2 Great and smooth design.
- 3 High quality and durable.

This is a portable see-saw for two up to four persons. It's fun for children and grownups. The strong design and the seats of hard wood make this a durable playground equipment .

# Play house

## Product details:

200x200x320 cm + slide 150 cm

- 1 Comes with slide and in bright colors.
- 2 Fireman pole and a colorful roof.

The Play house is an old time favorite. The children imagine they have their own house with big toys, like a fire man pole and a slide. The Play house is colorful and made out of wood, everybody would like to have a house like this.

# Double seater

## Product details:

- 1 Big compartment for books.
- 2 Heavy duty frame.
- 3 Integrated bolts and nuts.
- 4 Strong Gmulaine wood.

School desks in Malawi often have a short life span, after one or two years they are in a bad condition, because the quality is not good. Sakaramenta makes strong and heavy duty school desks, which will survive many years.. We make school desks for primary school and secondary school.

# Pre-school desk

## **Product details:**

*For one up to eight children.*

- 1** *Colorful desk.*
- 2** *Smart appearance.*
- 3** *Sturdy frame.*

For the young children we have different sizes of desks, for one up to eight children. The heavy duty colourful chairs fit perfectly to all these desks.

The separate chairs are ideal for pre-schools where children work in groups and where the chairs should also be used for other activities.

# MOVE COLLECTION

Bicycle carts and push carts

---

# Sanitation cart & bin

## Product details:

Size drum on cart: 220 liters.

- 1 Heavy duty wheel barrow wheels
- 2 Lid to protect against wind and smell.
- 3 Sign writing possible.
- 4 Twice capacity of wheel barrow.

The Sanitation Cart is ideal to clean city and on the surroundings of schools and hospitals. It is much more effective than a wheel barrow, because it has bigger capacity and a lid. The cart can be used in combination with the sanitation bin.

Our sanitation bin tumbles so you don't have to use your hands to take the garbage out. Blantyre and Lilongwe use the cart already to keep their city clean.

# CareCar

## Product details:

Size cart: 85x200x80cm / Weight: 21kg

- 1 Heavy duty wheels.
- 2 Locally available spare parts.
- 3 Protective mudguards.
- 4 Removable and comfortable stretcher.

In Malawi the average distance to health centres in rural areas is 13 km. Pregnant women and patients have problems reaching the health centres because there is no transport. They often have to walk, which is a big health risk.

For these situations Sakaramenta has built the CareCar Bicycle Ambulance. Over 1200 CareCars are used in Malawi, mainly by hospitals and NGO's who have HIV-Aids or Save Motherhood programmes. The unique design guarantees a strong and durable bicycle ambulance of excellent quality.

# Branded Care Car

## Product details:

Size cart: 85x200x80cm / Weight: 21kg

- 1 Big branded sun cover 50x120 cm.
- 2 Branded mud guard.
- 3 Color of choice.

The branded Bicycle Ambulance is perfect for your Corporate Social Responsibility program. We brand the bicycle ambulance completely with your company name, logo and text. And we will link you to good NGO's who are in need for bicycle ambulances.

With this unique branded Bicycle Ambulance the people in Malawi know who saved their lives, when they are transported to the hospital.

# Hotdog cart

## Product details:

Size: 80x110x220 cm

- 1 Can be coupled behind the bicycle.
- 2 Easy to push and to pull.
- 3 Space to keep cooler boxes.
- 4 Sun cover.

There is huge potential in the cities of Malawi to sell hotdogs, roasted chicken and chips in a mobile cart. You can walk or cycle to the place where you meet your customers. Sakaramenta has developed for this purpose the smart looking Hotdog Cart. It has a gas or charcoal stove to roast your food to

perfection and it offers a lot of space for cool boxes and other goods. The sun cover offers shade to your customers and can be used to brand the cart. The sun cover can be folded in case you want to cycle. One thing is for sure, this Hotdog Cart is not only an eye catcher but also a money catcher!

# Shop cart

## Product details:

Size box: 56x90x90 cm / weight: 37kg

- 1 Big display to show products.
- 2 Can be attached to the bicycle.
- 3 Padlock to close the box.
- 4 Stand for parking.

The Shop cart is a new product in Malawi: a shop on wheels. With this cart you can transport, display and sell your products in a perfect way. The lid is used as a display to show your goods. You can even couple the Shop Cart to your bicycle and cycle to the place where you customers will be.

During lunch breaks you can visit company building, and for a football match you can visit the stadium. The Shop Cart is a real eye catcher, you will attract a lot of customers for your cold drink & snacks.

# School water cart

## Product details:

Size: 60x90x56 cm

- 1 Capacity of 3 x 25 liters
- 2 Chains to prevent stealing.
- 3 High ground clearance to avoid rocks.
- 4 Low handle. Easy to push for children.

Children are not washing their hands at school after they go to the toilet, because the containers at the latrines are often . In cooperation with Unicef we developed the School Water Cart. It is a strong and durable cart to carry water from the source to the latrines at school, a cart which can be locally maintained.

The School Water Cart can carry 75 litres of water. The 3 x 25 litre jerry cans are attached to the cart with chains so they cannot be stolen. The simple and strong design makes the School Water cart a sustainable solution for sanitation issues at schools.

# Madzi cart

From a medical point of view it is much better to push 150 liters of water than carrying 40 liters on your head. In close collaboration with international NGO's, Sakaramenta designed the MadziCar to empower women and to make their life easier.

The Madzi Cart can carry more than 150 litres of water. The strong wheels and long handle make the cart easy to push. It can be used for irrigation purposes or to transport and sell water.

# Black bull cart

## Product details:

Size box: 56x90x80cm, Weight: 35kg

- 1 Can be coupled behind a bicycle.
- 2 Cart is balanced so easy to move.
- 3 Normal size mountainbike tyre.
- 4 Reinforced spokes.

Sakaramenta has developed the Black Bull Push Cart. This heavy duty cart can carry up to 200kg. It has a big box, strengthened wheels with reinforced spokes and hubs. The tyre and the tube are the same size as the widely available mountain bike tyres. So the spare parts are locally available.

The Black Bull can even be coupled behind the bicycle, so you can transport your goods everywhere.
